"I do certify that I have set down in the above assessment roll all the real property liable to taxation situate in Baldwin Ward and the true actual value thereof in each case, according to the best of my information and judgment; and also that the said assessment roll contains a true statement of the aggregate amount of the personal property, or of the taxable income, of every party named on the said roll; and that I have estimated and set down the same according to the best of my information and belief; and I further certify that I have entered thereon the names of all the resident householders, tenants and freeholders and of all other persons who have required their names to be entered thereon, with the true amount of property occupied or owned, or of income received by each, and that I have not entered the names of any persons whom I do not truly believe to be a householder, tenant or freeholder, or the bona fide occupier or owner of the property, or in receipt of the income set down opposite his name, for his own use and benefit; and I further certify that according to the best of my knowledge and belief I have entered thereon the name of every person entitled to be entered thereon as a landholder or as a wage-earner, and that I have not intentionally omitted therefrom the name of any person whom I know or that good reason to believe was or is entitled to be entered thereon either as a landholder or as a wage-earner; and I further certify that the date of delivery or transmitting the notice required by section forty-seven of the Assessment Act is in every case truly and correctly stated in the said roll; and I further certify and affirm that I have not entered the name of any person at too low a rate in order to deprive such person of a vote, or at too high a rate in order to give such person a vote, or for any reason whatever; and that the amount for which each such person is assessed, <sup>upon the said roll</sup> truly and correctly appears in the said notice delivered or transmitted to him as aforesaid."
